GREAT IMPROVEMENT IN DENTIS. The attention of the public is called to a great

discovery in Dentistry.

THE GREATEST ADVANCE STEP EVER MADE IN THE ART.

The main difficulty in wearing artificial teeth is, they do not hold in their place firmly enough, and add to this the annoyance of food getting under the plate while eating. I have discovered a method of so constructing the plate on which the teeth are set that they will not start our drop while cating or speaking, neither will any particles of food get under the plate, no matter what the condition of the mouth is, which is not true of any method hithertoused.

Thave secured Letters Patent for the United States, England and France.

The improvement is not in material, but in the construction, which secures the atmospheric pressure on the entire plate. THE GREATEST ADVANCE STEP EVER

pressure on the entire plate.

I have sold the exclusive of said improvement to Dr. L. Gilman, to wit, the Counties of Frank-lin, Washington, Chittenden, Lamoille and Grand Isle. Those wishing to avail themselves

of such improvement, will call on Dr. L. GILMAN, ST. ALBANS..... VERMONT. N. T. FOLSOM.

Those who desire to raise first-class sotek, and all lovers of good horses, are respectfully in-formed that the Hambletoniau trotting stallion,

all lovers of good horses, are respectfully informed that the Hambletoniau trotting stallion, **YOUNG DEXTER:**vill stand for a limited number of mares the ensuing season, at the Homestead Stock Farm, Greenwich, Washington County, N. Y.; season to commence on the 1st of May and to end on the 1st day of September. Young Dexter was bred at Chester, Orange County, N. Y., is four years old, by Rysdyk's Hambletonian, stands nearly 16 hands high, and is one of the best of the get of his celebrated sire, Young Dexter is a half brother to Dexter, George Wilkes, Bruno, Brunette—allied to Mountain Boy—and other well known horses. Very evidently, from his size, shape, etc., Young Dexter will not only bring gentle, fine and speedy stock, but also handsome carriage and family horses as well. It is manifestly for the benefit of stock growers that they obtain not only the best and most popular blood in the country, but also that which commands the highest prices i't market, and it requires no more labor or care to raise a good colt than an inferior one. It was with the view to improve the stock of horses in Northern New York, Vermont and New Hampshire, etc., that Young Dexter was purchased by its present owner, Mr. H. C. Page, Editor of the People's Journal—the object being to benefit farmers and stock growers who are willing te undergo the care and expense necessary to the raising of good horses.
